## **A Better Life**

## **Jackson United**

Stop, take a moment and sit down Right here next to me Did you ever imagine As good as this could be

Breathe deeper than that now
Let the ocean air fill your lungs
Smell the flowers in the back yard
Don't worry about getting stung

'cause we're in the good times now Laugh like you don't know how 'cause we're in the good times

Stress to distress for nothing But the sake of a good complaint the drama of the instant Gets lost in some good restraint

Dim your lights now, for a moment And try to bring it down a bit Be careful what you wish for 'cause you can get lost in it

'cause we're in the good times now Don't act like you don't know how 'cause we're in the good times

Hey going to a better life and we go

'cause we're in the good times now
Laugh like you won't allow
'cause we're in the good times
