Yeah, we all around the world with this  
Woah

Something that's worth dying for  
Feelings you can't ignore  
You are where I wanna be  
I can't treat you like a game but I wanna play

Yeah, you got clientele  
You design the hill  
Bundles by the pill  
Okay, okay, okay  
Keep, keep, keep  
And you fine as hell  
But your boujee self  
You outdo yourself  
Okay, okay, okay

We no see the acres, we just wanna love somebody (Oh yeah)
