

Believe in You

Jacob Whitesides

The nostalgia of fall is wearing off
And the breeze this winter feels more harsh
If we just hold on tight we'll make it through

The lights on the tree have all burned out
So it's darker than usual in this house
If we just hold on tight we'll make it through

This Christmas, I'll believe in You

All that I'm wishing for this season
Is already right in front of me
When life doesn't feel like it used to
This Christmas, I'll believe in You

The snow has slowly turned to rain
And our Christmas cheer is mixed with pain
If we just hold on tight, we'll make it through
This Christmas, I'll believe in You

All that I'm wishing for this season
Is already right in front of me
When life doesn't feel like it used to
This Christmas, I'll believe in You

This Christmas, I'll believe in You
This Christmas, I'll believe in You
