

# Combustion

## Jacobs Dream

On and on  
Who knows where were going  
And you know  
I got to keep moving

There is dream  
A fire inside  
I know what I'm here for  
Don't stand in my way

I'll make no promise  
Ill see you again  
This side of forever  
But there'll come a day

On and on  
I know where I'm going  
Dusk to dawn  
The story is telling me

Combustion  
Fire in the night  
Combustion  
Lead me through the night

Hear a song  
That sings while I'm sleeping  
The voice I know  
But the lyrics escape me

Awakened I'm thinking  
Of dreams in the night  
Telling me something  
That I should surmise

Outside my window  
The world passes by  
Just misty memories  
Of places and times

Hear the song  
Thats singing inside you  
Someone knows  
The fear that is haunting

Combustion  
Lighting up the sky  
Combustion  
Set the night alight

Combustion  
Lighting up the sky  
Combustion  
Set the night alight

Combustion  
See the fire in your eyes

Combustion

Take you through the night
