Waters (dutchies) lot of herb (in the session)  
So-called tough guys (herbs with aggression)  
Put your thoughts all over the curb (with the Wesson)  
What used to be superb (now is depression)  
Negative energy - generated from the snakes  
(and the centipedes, you will) remember me  
I just get the storm started  
(Cold-blooded) warm-hearted  
(Either way) you on target  
(Move to the side) like a lane merge  
(The gun's like fried rice) Who want they brain stirred?
