

# Fallen

Jaden Smith

Take me to the truth  
Take me home with you  
Change my taste in music  
I'm fallen, Make me rise with you  
She likes me, I'm surprised you do

Look, your love's like a river, bae  
I've seen better days, yeah  
And my soul, you penetrate, I need your energy  
Vibrations make me levitate, sipping Hennessy  
Reading bell hooks, she just saying

I'm surprised you do, baby  
I won't lie to you, I love you  
I'm a guy who's new  
Hide me from the blue  
I'm dying on the moon  
And I just need you

Baby, you are so unusual like cutting cuticles  
But that is just what makes you beautiful  
Like watching tulips grow  
When you walk, it's just slow motion baby  
Why you moving slow?  
When you talk, I got my lasers on you like a UFO  
Girl your eyes are like the open sea, the simple poetry  
This whole generation, OMG, I see its soul, it's older  
We should build a city overseas, this country kinda cold  
I mean they feed they children dopamine  
And leave them on the sofa  
I mean, ah, I need someone to renounce with, woah  
Ice bucket challenge in the fountain, woah  
Chance of finding you, one in a hundred thousand, woah  
I just wanna kiss you on the mouth, woah

Spend some time with you  
I might bend the rules  
Cause I'm in love with you  
You can see the truth  
I will show you soon  
Just meet me on the moon

She said love is a strong word  
Said, love is a strong word  
Well I'm a sing it for you baby, I'll be your song bird  
If we don't have no loving  
How we supposed to move on, word?  
Heard a brother just got shot  
Because he stopped on the wrong curb  
If love is a strong word, love is a strong word  
But we'll need lots of loving if we wanna move on, word  
And I'm a sing it to you, baby, I'll be your song bird  
But I'm a keep it honest with you

I won't lie to you  
My pride dies with you  
Girl, I love you too

I will see you soon  
Your homework is due
