

How I Love You

Jagged Edge

Stupid me, to think that I (to think that I)
Could ever ever find another you (no, no, no, no)
How I love you (yeah)
How I love you (yeah)
They just wanna hit tonight
I just wanna treat you right
No need for the flex tonight
I just wanna treat you right
How I love you
How I love you

I can't count the ways that I love you
Girl, I don't put nothin' above you
When I used to ball on a budget
You ain't give me nothin' but love, and
Even when I be on bullshit
You keep cool, you be coolin'
I know that you straight from New Orleans
But you look like you straight off an island
There ain't nothin' you can't have
I had it all right from the bag
Cause you help me get this bag
Just walk in the store and just grab shit
All on me, I want your body all on me

Stupid me, to think that I (to think that I)
Could ever ever find another you (no, no, no, no)
How I love you (yeah)
How I love you (yeah)
They just wanna hit tonight
I just wanna treat you right
No need for the flex tonight
I just wanna treat you right
How I love you
How I love you

I asked for a break, I was buggin'
Sometimes our love feel like we thuggin'
When you break down these fights, they for nothin'
We was good ridin' in buckets
And all I know
Other woman can love me, that's why I'm not lettin' you go
Baby, even though, we don't agree at times (oooo)
We play our role, our passion has got its own body (oooo)
It ain't no secret no one know we made it (?)
They say love's a game and that's just how we played it
All on me, I want your body all on me
It was so silly of me

Stupid me, to think that I (to think that I)
Could ever ever find another you (no, no, no, no)
How I love you (yeah)
How I love you (yeah)

They just wanna hit tonight
I just wanna treat you right
No need for the flex tonight
I just wanna treat you right
How I love you
How I love you

How I love you
How I love you
How I love you
Girl, late at night or early in mornings, I'm all on you baby
I said that I love you so let me count all of the ways you amaze me
I see the (?)
Girl, how I do love you
Let me count all of the ways (yeah)
