

Love Come Down

Jagged Edge

I can't control my hands love
Cause every time that I'm around you girl
My body go bananas it's like thing's got a mind all of its own
Baby excuse my manners
I don't know but you make me feel like an animal, and even though

I need what you got, I'll sink in your spot
From your feet to your top
Imma do all I can to make your love come down
Love come down
Love come down yeah, yeah, yeah
I need what you got, I'll sink in your spot
You and me in the box
Imma do all I can to make your love come down
Love come down
Love come down yeah, yeah, yeah

Girl when your love come down I'll be looking like I'm crazy
When your love come down I'm like I told you so baby
When your love come down, eh
When your love come down, eh

Girl when your love comes down
And your body get to shaking
When your love come down
Headboards get to breaking
When your love come down
Love come down

I need what you got, I'll sink in your spot
From your feet to your top
Imma do all I can to make your love come down
Love come down
Love come down yeah, yeah, yeah
I need what you got, I'll sink in your spot
You and me in the box
Imma do all I can to make your love come down
Love come down
Love come down yeah, yeah, yeah

If these walls they could talk in this room
They'd speak of love and passion and booze
Oh before your love come down baby
When your love come down
[ad libs]
Make your love come down baby

I need what you got, I'll sink in your spot
From your feet to your top
Imma do all I can to make your love come down
Love come down
Love come down yeah, yeah, yeah
I need what you got, I'll sink in your spot
You and me in the box
Imma do all I can to make your love come down
Love come down
Love come down yeah, yeah, yeah
