

Marijuana

Jah Cure

One puff, one draw
Frees the mind
Hmm...

Feeling irie
Take a pull and fill my lungs
Every worries inside me
I turn them into little clouds
I'm so grateful to nature
For this sweet euphoria
Feeling irie
Mmm, I'm feeling good
Bob Marley know it all along
And Willie know it all along
They even try to say it's wrong
But I knew it all along

That the marijuana (frees the mind)
Yes, the marijuana (gets me high)
So put your lighters in the sky
Tell the government, "Legalize"
Marijuana, marijuana

Jah cure these herbs and they're good for me
I'm floating on a hill so stoney
I'm glad to know I'm not alone
Because, Rastafari's my custodian
We represent the herbs on the podium
The Indicas are short like Napoleon
Sativas don't like too much sodium
The seeds can replace your petroleum
The leaves have a skunky aroma scent
THC make you feel like it's heaven sent
CBD is to me like a medicine
Do some research and you'll be pleased by the evidence
Perhaps you'll cultivate some trees in your residence
And agree to disagree with the presidents
Tell the prime ministers please don't be hesitant
To let the herbs grow and be free

That the marijuana (frees the mind)
Yes, the marijuana (gets me high)
So put your lighters in the sky
Tell the government, "Legalize"
Marijuana, marijuana
Frees the mind

So many legal drugs are killing us
Illness they're giving us
Yet still they criticize the marijuana, yeah

Marijuana, yeah (frees the mind)
Yeah, yeah, yeah
Marijuana (gets me high)
Put your lighters in the sky
Tell the government, "Legalize"
Marijuana, marijuana

Frees the mind, yeah (frees the mind)
Ooh yeah
Gets me high (gets me high)
Gets me high
Marijuana frees the mind
Put your lighters in the sky
Tell the government, "Legalize"
Marijuana, marijuana
Frees the mind
Oh, one puff one draw
Ooh, oh, oh
Oh, my marijuana
Hmm...
Love my marijuana
I get it chilling with mi friends and relaxin' 'pon di corner
