

Pretty Face

Jah Cure

Every time I see your pretty face
You have me sounding crazy out of space
Take my heart and move to a place
Put my mind in a happy space

Move to the Bimma
You have the key
Let's go for dinner its all on me
Cause baby your my favorite
And I won't be playing games with your heart
Maybe we could make it
Through the thick and the thin
That's why we stick together
Loving you and that skin
Beautiful Face Beautiful Smile
Your everything a man could ever want in life

Everytime I see your pretty face
You got me sounding crazy out of space
Take my heart and move to a place
Put my mind in a happy space

Girl come under me umbrella
Shelter you just like Rhianna
She said she check for the Genna
But more for the cheddar
Keep me close to your heart
Just like it was from the start
Nothing in this world could ever come between me and you girl
As long as the stars are aligned I'm a be with you
Your the Keys to my heart
We will never depart

Every time I see your pretty face
You have me sounding crazy out of space
Take my heart and move to a place
Put my mind in a happy space

Move to the Bimma
You have the key
Let's go for dinner its all on me
Cause baby your my favorite
And I won't be playing games with your heart

Every time I see your pretty face
You have me sounding crazy out of space
Take my heart and move to a place
Put my mind in a happy space
