

Cocaine Kisses

Jai Waetford

Cocaine kisses on my lips so numb
Wasting time cause we still so young
Feels so right but it feels so wrong
Never wanna ever let you party alone
Never wanna ever see me party alone

Never wanna stop till we too far gone
Oh nah nah nah
Hands on your body from dusk till dawn
Oh nah nah nah
I'm not tryna complicate, oh yeah
I just give it to you straight, oh yeah
Gasolina that's the taste, oh yeah

You already know that I'm fucked up, yeah
Pour the 40 in the red cup, yeah
Two keys little bump up, yeah
Now my baby tryna get some, yeah
Oh...

I been getting wild for the night with my baby
Party till the am you could we crazy
Cocaine kisses, oh yeah
Cocaine kisses, oh yeah

Call me to the room with the low lights
We both tryna get the same high
You're the drug I'm the fiend and we're so tight
Carry on from the dark to the day light
I'm awake seeing 20/20 foresight
Tryna give you more life

I'm coming down but it's all right
Cuddled up in the sun light
We can do it in our own time
Oh oh...
I'm coming down but it's all right
Cuddled up in the sun light
We can do it in our own time

Never wanna stop till we too far gone
Oh nah nah nah
Hands on your body from dusk till dawn
Oh nah nah nah
I'm not tryna complicate, oh yeah
I just give it to you straight, oh yeah

You already know that I'm fucked up, yeah
Pour the 40 in the red cup, yeah
Two keys little bump up, yeah
Now my baby tryna get some, yeah
Oh...

I been getting wild for the night with my baby
Party till the am you could we crazy
Cocaine kisses, oh yeah
Cocaine kisses, oh yeah

I be getting wild for the night with my baby
Party till the am you could we crazy

Cocaine kisses, oh yeah
