

Living Not Dreaming

Jai Waetford

Some things just never change but
We just can't stay the same, I'm
Running in circles watching you call someone else's name
I know it's not my place but, my mind will never change
No matter what I do I can't help running back to you
I can't help but thought of us, of us
Ohh, just focusing around your catches
I, I can't help defeated by love, by love
By love, by love

Ohh
Maybe we don't care enough tonight
Take your face and drove into the sky
Whatever's wrong will make it feel right
We're living not dreaming
What's the possibility in me
Making up the time I spend with you
Tell me what you want me to do

We're living not dreaming
We're living not dreaming
We're living not
We're living not dreaming
We're living not
We're living not dreaming

So what's the point on taking
So much but never taking
A chance on new romance
Cause it's a movie scared on making
So am I meant to be or
Since when I've got to need you
So stop sending

I can be the kind to what will lead you
Maybe we don't care enough tonight
Take your face and drove into the sky
Whatever's wrong will make it feel right
We're living not dreaming
What's the possibility in me
Making up the time I spend with you
Tell me what you want me to do

We're living not dreaming
We're living not dreaming
We're living not
We're living not dreaming
We're living not
We're living not dreaming

We're too young to follow what they told
I can't help but thought of us, of us
Ohh, just focusing around your catches
I, I can't help but think about, think about love
Maybe we don't care enough tonight
Take your face and drove into the sky
Whatever's wrong will make it feel right

We're living not dreaming
What's the possibility in me
Making up the time I spend with you
Tell me what you want me to do
We're living not dreaming
We're living not dreaming
