

# Running Cold

Jai Waetford

Never wanna tell me  
The wrong things  
You're scared of what I'll say  
Start doing things  
Letting go  
Falling in love with the real you  
No, easy to fool when I'm drowning  
Close, hold me down  
Don't let me go

'Cause I got issues  
That I can't control  
And you're scared the stakes  
That I will run in, no  
But I can change you  
And you can change me  
Give it time now  
And time will change things  
I love you till our days start running cold

Hold me closer  
I don't want to be lost in the dark  
Yeah love  
Give you a light  
Hold it close to your heart  
So I can see  
Out of control now  
You falling so fast  
And you what's to come  
Taking a chance but you ready  
Something you should know  
I love you till our days start running cold  
I love you till our days start running cold

Got up in a place of where we are  
Sometimes you feel so close  
Yet still so far  
Losing sleep  
Wondering if you're  
Thinking of me  
Drowning in theses storms  
So ocean deep  
We'll be okay  
Hold on to me

'Cause I got issues  
That I can't control  
And you're scared the stakes  
That I will run in, no  
But I can change you  
And you can change me  
But give it time now  
And time will change things  
I love you till our days start running cold

Hold me closer  
I don't want to be lost in the dark

Yeah love  
Give you a light  
Hold it close to your heart  
So I can see  
Out of control now  
You falling so fast  
And you what's to come  
Taking a chance but you ready  
Something you should know now  
I love you till our days start running cold  
I love you till our days start running cold (yeah)

When the light gives low  
And you're going home  
You never ever have to  
Sleep alone  
I'm here  
I'm here  
When the light gives low  
And you're going home  
You will never ever have to  
Sleep alone  
I'm here  
I'm here

I love you till our days start running cold
