

I know when you look at me
You're feeling something
Your heart's broke but you still believe
All the nothing

I wanna make it right
But I'm scared to walk the line
'Cause...

I've been here before
And so have you
I'm scared of getting old
And you are too
Maybe we should stay young
And ever in a day
Baby, take my hand and ride the waves with me
With me
Just ride the waves with me

My mind is a broken shape
I think of you in a million ways
You're direction is where I leave
You're the map through the love of me

We're gonna make it right
'Cause we got a plenty of time
But...

I've been here before
And so have you
I'm scared of getting old
And you are too
Maybe we should stay young
And ever in a day
Baby, take my hand and ride the waves with me
With me
Just ride the waves with me
With me
Just ride the waves with me

Why question
I jump right in
With our ocean
She understands me
There's no bottom
To this city
The darkest waters
Run within me

I've been here before
And so have you
I'm scared of getting old
And you are too
So maybe we should stay young
Forever in a day
Baby, take my hand and ride the waves with me
Let your hair turn gray with me
