

# Let It Go

Jake Coco

For what it's worth I hope you're happy  
For what it's worth I hope you smile  
I hope you find the kind of love your hearts been needing for a  
while

For all the answers that we're seeking  
And all the trouble that we find  
It only goes to show that everything is jaded in our eyes

So if it's over, then its over  
Gotta let it go  
When it's over, it's over  
Just let it go

What other way is there to put this  
What other words are there to say  
Seems like I've lost my mind 1000 times and now it's here to st  
ay

How many times can we believe it  
How many moments can we spare  
I've seen the angles and the changes have me running like I'm s  
cared

So if it's over, then its over  
Gotta let it go  
When it's over, it's over  
Just let it go

So sit down and think about the love and doubt we threw away ju  
st yesterday  
The hope and cheer, the fear we used to get us through the nigh  
t  
Hindsight is always blurred, we learned and lost, but made it o  
ut alive....

So if it's over, then its over  
Gotta let it go  
When it's over, it's over  
Just let it go
