

# Halfway

Jake Miller

Done with this game  
Fuck the same page  
We ain't even in the same book  
Simple and plain  
Feel like you changed  
You don't give me the same look

You're up and down  
You're left and right  
Girl, you don't know yourself  
If you don't hurry up I'll give my love to someone else  
So are you in (in) or out (or out)  
Cause I don't need your halfway love  
Won't wait (won't wait) around (around)  
Praying you'll make your mind up  
I've had enough tell me straight up  
Girl are you in or you out (you out)  
I don't need your halfway love  
I don't need your halfway love  
I don't need your halfway love  
I don't need your halfway love  
You in or you out  
I don't need your halfway love

Dangerous game  
Flame to propane  
You gon' burn us down  
Won't say no names  
Who do we blame  
Where do we go now?
