

I Hope I Die First

Jake Miller

(I don't wanna live without you)
(I don't wanna live without you)

It's a mad world outside
Dark days, strange times
With your hand in mine
It's the only way I survive
Cause the thought of you not around
I'd rather be 6 feet underground
So for the night, can we pretend
That all good things don't always have to end
Mmhmm

What if we could live forever?
What if we could just stay 25
If only we could live forever
But if that's not how it works then
I hope I die first

Ohhhh ohhhh
I don't wanna live without you
I don't wanna live without you
Ohhhh ohhhh
But if that's not how it works then
I hope I die first

If I rolled over, and you weren't there
Take all of the breath from both of my lungs
Yeah I don't care
Cause one day without your smile
Would send me into a downward spiral
I couldn't take it
No I don't think I'd make it

Cause the thought of you not around
I'd rather be 6 feet underground
So for the night, can we pretend
That all good things don't always have to end
Mmhmm

What if we could live forever?
What if we could just stay 25
If only we could live forever
But if that's not how it works then
I hope I die first

Ohhhh ohhhh
I don't wanna live without you
I don't wanna live without you
Ohhhh ohhhh
I don't wanna live without you
I don't wanna live without you

What if we could live forever?
If only we could live forever
But if that's not how it works then
I hope I die first

I hope I die first
I hope I die first
