

Intro

Jake Miller

The world is up in flames and I feel like cryin'
Can't turn on TV, that shifts terrifying
All I see is hatred and people dying

It's like we all woke up in a scary movie
But even in the darkness I found the beauty
Cause heaven sent an angel to stand next to me

And you said

Take my hand let's fly above these thunderclouds
As long as we're together we can make it out, make it out
Take my hand let's fly above these thunderclouds
And don't look down

Oh my god, I can see the silver lining
And it's shining like a million diamonds
Oh my god
Oh my god

Oh my god, think I found my silver lining
And she's flyin' next to me and smiling
Oh my god
Oh my god

We feel sorrow, we feel pain
But there's sunshine after rain
We feel sorrow, we feel pain
But there's sunshine after rain
