

Lights On

Jake Miller

Alright let's do it

Light from the window, shinin' on through
Love how the moonlights reflectin' on you
Body on body, alone in your room
But I can't see the details, well maybe a few

I, I'm missing that look in your eyes
So if it's cool with you

Can we keep, can we keep, can we keep the lights on?
Can we keep, can we keep, can we keep the lights on?
Cause I hear you, and I feel you
But it's way too dark to read you
So can we keep, can we keep, can we keep the lights on?
Can we keep the lights on, lights on
Can we keep the lights on, lights on
Cause I hear you, and I feel you
But it's way too dark to read you
So can we keep, can we keep, can we keep the lights on?

Question, have you ever done this?
If not it's okay
Baby just sit back, and I'll lead the way
I don't wanna imagine, I've guessed for too long
Just flip the switch now, and I'll turn you on

I, I'm missing that look in your eyes
So if it's cool with you

Can we keep, can we keep, can we keep the lights on?
Can we keep, can we keep, can we keep the lights on?
Cause I hear you, and I feel you
But it's way too dark to read you
So can we keep, can we keep, can we keep the lights on?
Can we keep the lights on, lights on
Can we keep the lights on, lights on
Cause I hear you, and I feel you
But it's way too dark to read you
So can we keep, can we keep, can we keep the lights on?

You're too beautiful to hide like that tattoo on your side
Can I see it? Can I see it?
You're too beautiful to hide like that tattoo on your side
Can I see it? Can I see it?

Can we keep, can we keep, can we keep the lights on?
Can we keep, can we keep, can we keep the lights on?
Cause I hear you, and I feel you
But it's way too dark to read you
So can we keep, can we keep, can we keep the lights on?
