

LONDON LIGHTS

Jake Miller

I got you under London lights

There you were dressed in black
We were staying at the same hotel
She said: "I wanna see the city, so boy come with me
'Cause I ain't trynna see it by myself"

Hit a few bars, took a few shots
And I was spinning like a carousel
No, I can't say that I've been in love
But this has gotta be the way it feels

I got you under London lights
But it feels like it's only you and I
And I know that we're still strangers
But I love the way you shine
When I got you under London lights
Under London lights
Under London lights

Back of the cab
You steal my hat
You got your hands all over me
I still don't know
Your last name
But you can't fight chemistry

We're sipping on Jack
In a paper bags
While we're dancing in the street
I got a flight back home
At 10am
But girl you're makin' it hard to leave

I got you under London lights
But it feels like it's only you and I
And I know that we're still strangers
But I love the way you shine
When I got you under London lights
Under London lights
Under London lights
Under London lights

And I know this doesn't happen every night
But I'm afraid that we are running out of time
I got you under London lights
But it feels like it's only you and
(Only you and I)

Yeah I got you under London lights
But it feels like it's only you and I
And I know that we're still strangers
But I love the way you shine
When I got you under London lights
Under London lights
Under London lights
And I know that we're still strangers

But I love the way you shine
When I got you under London lights
Under London lights
