

See Ya Soon

Jake Miller

I've been away from quite some time now,
I think it's time I come home!
And if you ask me I'll say it's just fine
But deep inside I'm alone! (damn!)
And I don't know if I can do this much longer
Baby, help me pull through, trust me!
The good life isn't all that good
When I can't even enjoy it with you!

Girl, I can't wait to come to you, come home!
No I can't wait to come home to you, come home, yeah!
I just need to see your face, I just need to hear your voice
This all missing you thing just won't do, yeah!
Baby, I need to come home to you, come home to you!
Yeah, I can't wait to come home to you
(Wait, you know what?
Screw it, girl, I'm coming back right now!)
This all missing you thing it's now through!
See ya soon

Haven't kissed your lips in almost six or seven weeks now
Starting to feel like a mess
The closest thing I'm seeing is smile in a while
It's that smiley face when we text!
Girl, I hate to see you cry,
Yeah, tried to stay strong, so I'm constantly just trying to pretend
That it doesn't kill me deep inside when I look into your eyes
Cause I always end up leaving again, yeah!
But now I'm done doing that,
I come and I go but I'm through with that
No, I'm never gonna leave your side again
So tell me, are you cool with that, yeah!
Yeah, me too, now it's just me and you
I love you, baby! I'll see you soon!

Girl, I can't wait to come home to you, come home
No I can't wait to come home to you, come home, yeah!
I just need to see your face, I just need to hear your voice
This all missing you thing just won't do, yeah!
Baby, I need to come home to you, come home to you!
Yeah, I can't wait to come home to you
(Wait, you know what?
Screw it, girl, I'm coming back right now!)
This all missing you thing it's now through!
See ya soon

Baby, you're my everything, yeah, I hope you know it
But when I'm half way across the world it's hard to show it
Always begging me to come home, so that's what I'mma do
Yeah, I'm hopping on the first flight out, I'll see you soon!
Baby, you're my everything, yeah, I hope you know it
But when I'm half way across the world it's hard to show it
Always begging me to come home, so that's what I'mma do
