

# Think About Us

Jake Miller

Don't know what to say  
I keep calling her your name  
Oh I, oh I...  
Just saw all your friends  
Now I'm missing you again  
Oh I, oh I...  
Yeah

Can't help but call you up when I'm wasted  
I can recall what you look like naked  
Gimme your love, it's hard to replace it now

'Cause even though I do  
My best at moving on  
I think about us sometimes  
I think about us sometimes  
I feel you're getting closer  
Even though you're gone  
I think about us sometimes  
Do you think about us sometimes?

I think about us sometimes  
I think about us some...

You might be surprised  
Just how much I fantasize  
Oh I, oh I...  
You might be my ex  
But you just might be my next  
Oh I, oh I...  
Yeah

Can't help but call you up when I'm wasted  
I can recall what you look like naked  
Gimme your love, it's hard to replace it now

'Cause even though I do  
My best at moving on  
I think about us sometimes  
I think about us sometimes  
I feel you're getting closer  
Even though you're gone  
I think about us sometimes  
Do you think about us sometimes?

Everywhere I go, I swear  
I keep seeing your face  
And my heart still breaks a little  
Every time I hear your name

Everywhere I go I swear  
I keep seeing your face  
And my heart still breaks a little  
Every time I hear your name

'Cause even though I do  
My best at moving on

I think about us sometimes  
I think about us sometimes  
I feel you're getting closer  
Even though you're gone  
I think about us sometimes  
Do you think about us sometimes?

Everywhere I go, I swear  
I keep seeing your face  
(I think about us sometimes)  
And my heart still breaks a little  
(I think about us sometimes)  
Every time I hear your name

Everywhere I go, I swear  
I keep seeing your face  
(I think about us sometimes)  
And my heart still breaks a little  
Every time I hear your name
