```
Have you ever wondered why you sometimes see me smile ?
It's to tell you that I care.
And the best thing you can do is come and follow through
just to hold me
just be there.
I'm falling in love
I can't help myself.
You're making it clear that I need no one else.
The state of the heart that just won't give in
right here's where we start
'cause you send me.
Round and around and around round
Round and around and around -
that's what you do
Round and around and around -
I'm falling for you
Round and around and around round.
Has it ever crossed your mind that you might want to find
something else or someone new ?
'Cause the pleasures that you give I just don't want to share
not with no one
just with you !
I'm falling in love
I can't help myself...
Round and around and around -
that's what you do
Round and around and around -
the state of my heart
Round and around and around -
come follow me through
Round and around and around round - come on.
Give me your all the best way you can
make me feel you're the only man.
Give me the touch that'll bring me to the knees.
And now that I know how your love can be
hold me closer
baby
be good to me.
Can't help falling in love - just the state of my heart -
I just can't get enough - oh
```

how you send me.

Round and around and around round - you go straight to my head

Round and around around round - that's what you do

Round and around around round - I'm falling for you

Round and around and around round — oh you send me.

Round and around and around round -...
