

From Me to You I Hate Everybody

James Arthur

I used to come here on my own and drink
So I didn't have to think or hear the whispering
I stand with people telling lies again
In suits and ties again
And I just need a friend

You walked into the room and cut the atmosphere like a knife, a
light
A sober reminder that 'til now, I've just been wasting my time,
ooh yeah

From me to you, I hate everybody
From me to you
From me to you, just a bunch of bodies in this room
And maybe it's too soon, but shall we go now, baby?
Shall we go now? Ooh
Mm-mm

Yeah
I used to stand here with an angry face
Made people look away
I never played the game
Kill them with kindness, it's a lesson learned
Instead of bridges burned
Look how you made me turn

You leave the room and I could cut the atmosphere like a knife,
oh my
A sober reminder that you're better when you're there by my side,
oh woo

From me to you, I hate everybody
From me to you
From me to you, just a bunch of bodies in this room
But maybe it's too soon, shall we go now, baby?
Shall we go now? Oh

Shall we go?
Shall we go?
Gotta get from me to you
Gotta get from me to you
Gotta get from me to you

From me to you, I hate everybody
From me to you
From me to you, just a bunch of bodies in this room
And maybe it's too soon, but shall we go now, baby?
Shall we go now? Oh
