

# If We Can Get Through This We Can Get Through Anything

James Arthur

How can someone so beautiful as you be such a terrible human?  
I lay in bed at night and wonder to myself, what the fuck are we doing? Yeah

But I like the way that you always stand up for yourself  
But you gotta take it too far, and you drag me through hell  
Honey, you know how to turn me around, don't know how you do it

So let's smoke (So let's smoke)  
Let's drink (Let's drink)  
Till we're fuckin' in the bathroom, leanin' over the sink  
So let's dance (So let's dance)  
Let's grind (Let's grind)  
We've only gotta make it till the end of the night

'Cause if we can get through this, we can get through anything  
There's nothing we can't forgive, we can get through anything  
I believe in you, you believe in me  
And I guess that's all that matters  
So if we can get through this, we can get through anything, oh  
If we can get through this, we can get through

Yeah

I'm pretty sure there must be someone out there who'll take care of me better

'Cause something scares the living shit outta me about saying forever  
, yeah

But I like the way that you sit up there on your high horse  
You make me feel like if I left, it would be my loss  
I'm still here, baby, I'm your prisoner for the foreseeable future, yeah

So let's smoke (So let's smoke)  
Let's drink (Let's drink)  
Till we're fuckin' in the bathroom, leanin' over the sink  
So let's dance (So let's dance)  
Let's grind (Let's grind)  
We've only gotta make it till the end of the night

'Cause if we can get through this, we can get through anything, mmm  
There's nothing we can't forgive, we can get through anything  
I believe in you, you believe in me  
And I guess that's all that matters  
So if we can get through this, we can get through anything (Through anything)

Oh, I believe we can get  
Oh-whoa, yeah

'Cause if we can get through this, we can get through anything, mmm (Oh, we can get through)  
There's nothing we can't forgive, we can get through anything (We can get through anything)

I believe in you, you believe in me  
And I guess that's all that matters (All, all, yeah)  
So if we can get through this, we can get through anything, oh  
If we can get through this, we can get through
