

# Wild Love

James Bay

Don't know what to say to you now  
Standing right in front of you  
Don't know how to fade in and out  
Don't know how to play it cool  
Losing a little guard, let it down  
We don't have to think it through  
We've got to let go

I wanna give you wild love  
The kind that never slows down  
I wanna take you high up  
Let our hearts be the only sound  
I wanna go where the lights burn low  
And you're only mine  
I wanna give you wild love

Tried to call you, to feel you close  
From a runway in Tokyo  
Let's leave the atmosphere, disappear  
There's always something left to loose

But I wanna give you wild love  
The kind that never slows down  
I wanna take you high up  
Let our hearts be the only sound  
I wanna go where the lights burn low  
And you're only mine  
I wanna give you wild love  
I wanna give you wild love

I wanna give you wild love  
I wanna give you wild love  
Let's be reckless, unaffected  
Running out until we're breathless  
Let's be hopeful, don't get broken  
And stay caught up in the moment

But I wanna give you wild love  
The kind that never slows down  
I wanna take you high up  
Let our hearts be the only sound  
I wanna go where the lights burn low  
And you're only mine  
I wanna give you wild love  
I wanna give you wild love

Give you wild love  
Wild love  
Wild love  
Wild love
