

# Champions

James Blunt

Get a little nervous, then I stumble and I hesitate  
Never take a chance because I'm too afraid my heart will break  
Everything I ever want is standing right in front of me  
But I think that I'm runnin' from the only one I really need

But time stands still and I'm feeling so much  
And it's all right here and I just gotta trust that  
You're the one, and the time has come  
So tell me, baby, what's it gonna take?

We can be the champions, we can own the night  
Yeah, it might destroy us, but we gotta try  
Can't keep looking backwards, running from the light  
'Cause this could be the greatest moment of our lives

Get a little closer now and I can feel it in my blood  
Something 'bout your energy that moves me every time we touch  
Worshippin' the only thing that's always playin' on my mind  
So tell me what we waiting for 'cause we should lay it on the line

But time stands still and I'm feeling so much  
And it's all right here and I just gotta trust that  
You're the one, and the time has come  
So tell me, baby, what's it gonna take?

We can be the champions, we can own the night  
Yeah, it might destroy us, but we gotta try  
Can't keep looking backwards, running from the light  
'Cause this could be the greatest moment of our lives

We could be the champions, we can own the night  
This could be the greatest moment of our lives

(Champions, champions)  
Fighting till the last in the dust, no, we won't back down  
(Champions, champions)  
It's time to let the whole world know

We can be the champions, we can own the night  
Yeah, it might destroy us, but we gotta try  
Can't keep looking backwards, running from the light  
'Cause this could be the greatest moment of our lives

We could be the champions, we can own the night  
This could be the greatest moment of our lives
