

Ride with me, hold on to me  
And we'll never come back down  
Under the heavens, in your arms  
There's something that connects us  
There's no reason, there's no why  
Just this moment, just this instant

Feel the change, every single move you make  
Stars rearrange, the way you feel I can't escape  
Nothing ends, can't pretend - gemini

I hear music from another time  
And the present seems to disappear  
You can't say no, you can't deny

You will never feel this way again

Feel the change, every single move you make  
Stars rearrange, the way you feel I can't escape  
Nothing ends, can't pretend - gemini

In your eyes, gemini, drift asleep  
Calling me again and again

Feel the change, every single move you make  
Stars rearrange, the way you feel I can't escape  
Nothing ends, can't pretend, nothing ends, start again
