

# I Got You

James LaBrie

Just me, myself and I  
I just don't get it right  
No matter what I try

And I just want to run  
From what's about to come  
I can't keep hope alive

When I veer so far off the course  
When I'm stuck and can't take anymore

It's easy to forget  
When I'm scared half to death  
You never left my side

I don't need stars I can wish upon  
And I don't need some magician with a magic wand  
That could wave just to make me strong  
Cause I got you

When down and out of luck  
And things just don't add up  
When I just want to shout

And wrong just feels so right  
Not always black or white  
Can't figure this thing out

When I veer so far off the course  
When I'm stuck and can't take anymore

It's easy to forget  
When I'm confused at best  
You rid me of my doubts

I don't need stars I can wish upon  
And I don't need some magician with a magic wand  
That could wave just to make me strong  
Cause I got you

When I veer so far off of the course  
When I'm stuck and can't take anymore

It's easy to forget  
When I'm scared half to death  
You never left my side

I don't need stars I can wish upon  
And I don't need some magician with a magic wand  
That could wave just to make me strong  
Cause I got you
