

Get Low

James Vincent McMorrow

Heard you're getting married (Get low)
Everybody says (Get low)
Greatest man alive (Get low)
I've been told (I could never show, I could never show)
Got yourself a dime (Get low)
Finally getting paid (Get low)
Buying people silence (Get low)
They're afraid (I could never show, I could never show)

Concentrate on violence, it works
It can get you so far
End up feeling worse, it's cold
And you're left with no one

I love the way your heart had no rule
Loving what your heart becomes
Even when your smile is so cruel
Loving what your heart becomes
Remember when my hands had turned blue
Loving what your heart becomes
I love the way you hang with no fool
Loving what your heart becomes

What your heart becomes
What your heart becomes

How we get lied (Get low)
Out there in L.A. (Get low)
Try to be the man you need (Get low)
Every day (I could never show, I could never show)
Further than an mile (Get low)
Until I like the way (Get low)
It's hard to stay inspired (Get low)
And stay awake (I could never show, I could never show)

And struggling in darkness, it works
It can get you so far
We're digging in the dirt, it gets old
Then you're left with no one

I love the way your heart had no rule
Loving what your heart becomes
And even when your smile is still cruel
Loving what your heart becomes
Remember when my hands had turned blue
Loving what your heart becomes
I love the way you hang with no fool
Loving what your heart becomes

What your heart becomes
What your heart becomes

Gather in a circle
Dropping to your knees
Praying for forgiveness from
Begging please
Clapping like we mean it

And nothing's ever changed
Everything about it
Oh, it stays the same

I love the way your heart had no rule
Loving what your heart becomes
Even when your smile is still cruel
Loving what your heart becomes
Remember when my hands had turned blue
Loving what your heart becomes
I love the way you hang with no fool
Loving what your heart becomes

What your heart becomes
What your heart becomes
