Summer

Jamestown Story

Just so long as this moment's full of love so will the leaves s tay green

As the winters tide will knock them down from all that they've achieve

Maybe if I love you harder, maybe if we both love harder we can make the

Summer last and toss the chills of winter farther.

Make this last, if there's one thing I could ask of you is don't hold back tonight

Take what's left, and hold on to it like I do you Cause we gotta, we gotta find a way, come on baby

Its so obvious we both need this much like the comfort of our k iss, we

Need the warm air at our backs or forever will we miss these su mmer

Nights these summer days spent in each others arms Looking for a way for us to stay here not apart

Don't hold back, as the night tries to take all our progress aw ay

Don't hold back, as the summer sun fades into winters cold haze , whoa-oh

Don't hold back, cause we've got to hold on, yeah I've got to hold on to

You....
