

Precious

Jamie Foxx

There are things that mean a lot to me
(Precious)
Some are more important than others,
But there's nothing more precious than my baby
(Precious)
It looks like the sun is gone,
Here I sit all night long,
Thinkin bout my baby she's on my mind.
Well all of my friends stop by
But I just can't deny, I rather chill with my lady tonight.
Because our lovin is strong and she's got it goin on
She swept me off my feet,
She's so unique..
And she'll come with me,
She's got my back in every way,
And so I'm not afraid to stop and say, ooohh
It is much to long,
Since I had a love this strong,
I can't resist the temptations of life
And I must confess to you..
Your type of love is new
When I'm with you everything is alright,
Because your lovin' is bold, and it'll keep me from the cold
What I need is your love,
Your precious love,
And she'll come with me,
She's got my back in every way
So I'm not afraid to stop and say ooohh.
