

90's Kids

Jamie Grace

We're just some 90's kids
90's
We're just some 90's kids

Introduce myself, introduce yourself
I wanna get to know you better and introduce ourselves
I'm a seven, so I like all the attention
And I'ma figure you out just like I'm Benson
It's not a Game-Boy, no Tamagotchi toy
You better walk man, don't just talk boy
You got my heart, my diary on lock, good reason -
Wanna take a look in a locked book? Need permission

Do not leave me guessing
Tell the truth, no double daring

We're just some 90's kids
Fell in love, we did
And it's kinda crazy that it moved so swift
We're just some 90's kids
Fell in love, we did
And I don't doubt our fire will stay lit

You hang up, then I'll hang up
But if we stay on the phone then we don't hang up
We got that old school love with a new school phone bill
Unlimited, nah I don't believe it too good to be real
St. Louis to Los Angeles
I'm not singing the blues when you not dodging us
You say what you mean and mean what you say
And if you mean it's me ya wanna meet then hop on the plane

You never leave me guessing
You tell the truth, no double daring

We're just some 90's kids
Fell in love, we did
And it's kinda crazy that it moved so swift
We're just some 90's kids
Fell in love, we did
And I don't doubt our fire will stay lit

People might say we moved too quick
But I talked to Jesus and he's cool with it
People might say we moved too quick
But I talked to Jesus and he's cool with it

We're just some 90's kids
90's
We're just some 90's kids

We're just some 90's kids
Fell in love, we did
And it's kinda crazy that it moved so swift
We're just some 90's kids
Fell in love, we did
And I don't doubt our fire will stay lit

We're just some 90's kids
Fell in love, we did
And it's kinda crazy that it moved so swift
We're just some 90's kids
Fell in love, we did
And I don't doubt our fire will stay lit

We're just some 90's kids
90's
We're just some 90's kids
