

# Big Love

Jamie Lidell

At the verge of the minute  
Got no fear anymore  
Is that the big love?  
Is that the big love?  
Is that the big love at my door?  
Well...  
Million thing, filling up the page  
Filling up the page with plans

You make, you make a big love  
You make, you make a big love

Elec-tric-it-y round us baby  
Electric love it's time we touch..  
Some would just insist that you'd be better off alone  
But people lie when they don't know  
But people lie when they don't know  
Oh, oh, oh

You make, you make a big love  
You make, you make a big love  
And now I know how love before was just a lie  
Yeah baby, it's just a lie!

In middle of the day  
Filling up the page, filling up the page with plans  
Being loved today, just being loved this way  
To mean it, like I mean it  
You left me loving c'mon!

You make, you make a big love  
You make, you make a big love  
You make, you make a big love  
And now I know my love before was just a lie  
Oh baby a lie!

Feel it baby, fill up .. pages, dance for us  
Big love, love it, feel it,  
Filling up the pages with my big love  
Could it be  
you make up, you make up a big love!  
Big love, could it be  
Big love, could it be  
Big love  
Big love x3  
Yeah, you got me feeling that I'm lifted off my feet  
That I'm lifted off my feet  
Big love, big love  
Oh, oh, oh, oh!  
Big love, big love, big love, big love!  
Big love, big love, big love, this is big love!  
Oh, oh, big love!
