Little Bit Of Feel Good

Jamie Lidell

Just the sound of your voice Drowning out all my noise When you call my name mysteriously All the source to let me see

Little bit of feel good goes a long way I need your touch to get me through my day Watching you sleeping I pray Please don't make my feel good go away

Just a look of those eyes, cutting through my smokey skies And the parts of me that grow from you Cleared my vision so that I could see

Little bit of feel good goes a long way I need your touch to get me through my day Watching you sleeping I pray Please don't make my feel good go away Find More lyrics at www.sweetslyrics.com

Just the smell of you hair follows me everywhere Your sweet alchemy turned trouble to gold Transforming it all to let me know

A little bit of feel good goes a long way I need your touch to get me through my day Watching you sleeping I pray Please don't make my feel good go away

Little bit of feel good goes a long way I need your touch to get me through my day Watching you sleeping I pray

Please don't make my feel good go away Please don't make my feel good go away Please don't make my feel good go away

Please don't make it go away
