

Cry Baby

Jamie Lynn Spears

Oooh
Yeaaah
Good things come for boys who wait
My love is just the same
You've gotta have to understand
A kiss goodnight, so you get home
No, you can't come in
I know you wan't to bread my lips

You can cry, cry, baby, baby all you wan't
You can try, try, but I'm gonna take this stop
Wanna make you wait, baby, baby, like in the night
Is the right time
The night tonight

You can cry, cry, baby, if you wan't to
You can try, try, but you know I lean on you
At the right time I'll be here at all to you
Until that time you can cry, baby cry, baby

OOOHHHU

I know what you got in mind
All good things come in time
You gotta have to prove your love
Before I let you inside my heart
That time is not too far
We're gonna get there lonely to run

You can cry, cry, baby, baby all you wan't
You can try, try, but I'm gonna take this stop
Wanna make you wait, baby, baby, like in the night
Is the right time
The night tonight

You can cry, cry, baby, if you wan't to
You can try, try, but you know I lean on you
At the right time I'll be here at all to you
Until that time you can cry, baby cry, baby

WOOOW

And I don't care what you say (no, I don't)
Cause you just gotta ave to wait
You can cry like a little boy
But I won't change on me
Cause I don't care what you do (I don't care)
When it comes to me and you
If you wanna make it right
Take a time
If you wanna be a love, you can love baby

Cryyyyyyyyyy

You can cry, cry, baby, baby all you wan't
You can try, try, but I'm gonna take this stop
Wanna make you wait, baby, baby, like in the night

Is the right time
The night tonight

You can cry, cry, baby, if you wan't to
You can try, try, but you know I lean on you
At the right time I'll be here at all to you
Until that time you can cry, baby cry, baby

You can cry, cry, baby, baby all you wan't
You can try, try, but I'm gonna take this stop
Wanna make you wait, baby, baby, like in the night
Is the right time
The night tonight

You can cry, cry, baby, if you wan't to
You can try, try, but you know I lean on you
At the right time I'll be here at all to you
Until that time you can cry, baby cry, baby

You can cry, cry, baby, baby all you wan't
You can try, try, but I'm gonna take this stop
Wanna make you wait, baby, baby, like in the night
Is the right time
The night tonight

You can cry, cry, baby, if you wan't to
You can try, try, but you know I lean on you
At the right time I'll be here at all to you
Until that time you can cry, baby cry, baby
