

# The River

Jana Kirschner

I was running from the traffic jam inside my head  
I close my eyes for a little while  
Drove a Cadillac  
I spread my wings  
And leave beneath the words  
That have been said  
There I am up in the clouds  
Free of the past

Take me to the river  
When blue turn yellow and green  
In the shade lay down by the water  
Just you and me  
Take me to the river  
I don't need the lights of Paris and Rome  
Take me down to the water  
Carry me home...

I left friends without note  
I hope they will understand  
I'm gonna let them go today  
Start up a new band

I wrote a song  
I made a wish  
I had a little fun  
Here in the clouds  
All my gravity  
Can't bring me down...
