

# What I Love About Your Love

Jana Kramer

The moon is brighter than the morning sun  
The birds sing sweeter and the bees they buzz  
A silly little song and we're humming along

Dancing like a dandelion, hands swinging in a breeze  
Floating like a butterfly, falling like an autumn leave  
It's no ordinary thing between you and me

It's what I love about your love  
Knocks me off my feet  
Takes me on a trip to another galaxy  
Smacks me with a smile longer than a country mile  
Gets my heart a runnin' like a river running wild  
I can never get enough  
That's what I love about your love

You lean over my shoulder and it's over and done  
Ain't nothing like a feeling of finding that one  
It's a piece of the puzzle  
Ain't no doubt about it  
It's a good kind of trouble

It's what I love about your love  
Knocks me off my feet  
Takes me on a trip to another galaxy  
Smacks me with a smile longer than a country mile  
Gets my heart a runnin' like a river running wild  
I can never get enough  
That's what I love about your love

It puts my hun in my honey  
Oh it puts the fun in my honey  
It's right on the money  
All of the above

It's what I love about your love  
Knocks me off my feet  
Takes me on a trip to another galaxy  
Smacks me with a smile longer than a country mile  
Gets my heart a runnin' like a river running wild  
I can never get enough  
That's what I love about your love  
That's what I love about your love  
That's what I love about your love

The moon is brighter than the morning sun  
That's what I love about your love  
The birds sing sweeter and the bees they buzz
