

## Arms Around My Life

Janis Ian

All those broken promises  
All those shattered dreams  
All this ache and loneliness  
That hides inside of me  
I've been waiting for so long  
I've forgotten what it's like  
To feel somebody's arms around my life

All this longing  
All this yearning  
All this hopeless  
Twisting and turning  
I've been lonely for so long  
I've forgotten what it's like  
To feel somebody's arms around my life

I know you're out there, somewhere  
Underneath the stars  
And when you finally find me  
I'll know who you are  
Starlight, star bright  
Haven't I the right  
To feel somebody's arms around my life

All the broken promises  
All the shattered dreams  
All this aching loneliness  
Will finally be set free  
I have waited for so long  
To remember what it's like  
To feel somebody's arms around my life
