

Thing for You

Jann Arden

I feel like you know me
I know well I know I know you do
I've got this thing going on, inside my head
I've got this thing for you

I like your face, I like your body,
I like your feet, I like your nose,
I like your chest beneath the covers
I like your heart, I like your soul
I like your life inside me pounding, like a heart inside a dream
Inside a dreamer that's been dreaming of a perfect symphony.
I like the way you walk beside me, like a paper in the wind
The way you swing your arms so gladly
Where you end and I begin, I like everything
About you, baby I do.

I feel like you know me well
I've tried to let you see me for yourself
I feel like I'm, I'm out of my head
I've got this thing for you

I like your face, I like your body,
I like your feet, I like your nose,
I like your chest beneath the covers
I like your heart, I like your soul
I like your life inside me pounding, like a heart inside a dream
Inside a dreamer that's been dreaming of a perfect symphony.
I like the way you walk beside me, like a paper in the wind
The way you swing your arms so gladly
Where you end and I begin, I like everything
About you, baby I do.

I like your face, I like your body,
I like your feet, I like your nose,
I like your chest beneath the covers
I like your heart, I like your soul
I like your life inside me pounding, like a heart inside a dream
Inside a dreamer that's been dreaming of a perfect symphony.
I like the way you walk beside me, like a paper in the wind
The way you swing your arms so gladly
Where you end and I begin, I like everything
About you, baby I do.
