Thing for You

Jann Arden

I feel like you know me I know well I know I know you do I've got this thing going on, inside my head I've got this thing for you I like your face, I like your body, I like your feet, I like your nose, I like your chest beneath the covers I like your heart, I like your soul I like your life inside me pounding, like a heart inside a drea m Inside a dreamer that's been dreaming of a perfect symphony. I like the way you walk beside me, like a paper in the wind The way you swing your arms so gladly Where you end and I begin, I like everything About you, baby I do. I feel like you know me well I've tried to let you see me for yourself I feel like I'm, I'm out of my head I've got this thing for you I like your face, I like your body, I like your feet, I like your nose, I like your chest beneath the covers I like your heart, I like your soul I like your life inside me pounding, like a heart inside a drea m Inside a dreamer that's been dreaming of a perfect symphony. I like the way you walk beside me, like a paper in the wind The way you swing your arms so gladly Where you end and I begin, I like everything About you, baby I do. I like your face, I like your body, I like your feet, I like your nose, I like your chest beneath the covers I like your heart, I like your soul I like your life inside me pounding, like a heart inside a drea m Inside a dreamer that's been dreaming of a perfect symphony. I like the way you walk beside me, like a paper in the wind The way you swing your arms so gladly Where you end and I begin, I like everything About you, baby I do.
