

## Wishing That

Jann Arden

When I held you, you would almost always hold me down  
You could see through everything  
I said I was falling and you said not to fall on you  
I've bitten every finger 'til it bleed

Wishing that you loved me to  
Wishing that you loved me to  
Wishing that

When I kissed you, you would almost always kiss me back  
But I could tell your mind was with someone else  
Oh my hands are folded neatly on my lap  
And I am picturing your body as I ask myself

If you loved me to  
Wishing that you loved me to  
Wishing that

Listen to my nervous laughter  
Sunken deep inside my heart  
My lips are dry, I'm teary eyed for you my love  
Harken all you fallen angels, help me find a place to rest  
My head is pounding here beneath the weight of this  
I'm wishing that  
And you know me, oh you know me more than anyone

When I hear your voice everything I've done disappears from memory  
Oh my darling come and save me,  
Tell me I'm the one your dreaming of  
Tell me that you love me to

Wishing that you loved me to  
Wishing that you loved me to  
Wishing that you loved me to  
Wishing that you loved me to  
Wishing that, I'm wishing that, wishing that, wishing that  
You loved me to
