

Follow Me

Jasmine Thompson

Follow me I am on your side
But we don't have much time
Momma said there's a war outside
Only the strong survive

I might be in this bed for the last time
All I really wanted was some peace of mind
Seems like the blind still lead in the blind
Rumours of war on the borderline
Why we askin' questions, no one knows
Tell me, what the hell are we fighting for?
Best friends turned foes test of time
Lovers turned to strangers overnight

Oh oh oh oh oh oh oh oh
Oh oh oh oh oh
Oh oh oh oh oh oh oh oh
Lovers turned to strangers overnight

Follow me I am on your side
But we don't have much time
Momma said there's a war outside
Only the strong survive

Sipping on this drink for the last time
All I really wanted was some peace of mind

What is gonna be, is gonna be
But at least I got you and you got me

Hmm hmm hmm
Oh oh oh oh oh
Hmm hmm hmm hmm
But at least I got you and you got me

Follow me I am on your side
But we don't have much time
Momma said there's a war outside
Only the strong survive

Tell me that it's part of the plan
Why am I sinking like quicksand?
You tell me that it's part of the plan
Why is no one dancing with the band?

Follow me I am on your side
But we don't have much time
Momma said there's a war outside
Only the strong survive

Follow me I am on your side
But we don't have much time
Momma said there's a war outside
Only the strong survive
