

Feels Like That

Jason Blaine

Tom Petty free falling on a summer night
Six stings, cold beer on ice
That kinda rush you get from jumpin' into cool water
Yeah some things you don't have to think twice or look back
Your love kinda feels like that

Wide open on a Harley down the highway
Sky diving being one with the wind
I've never hit it big in Vegas all-in, but I bet
Your love kinda feels like that

Girl you get me so high
I've been kissed by the sun, up in cloud number nine
And you don't even try
When I'm holdin' on to you yeah you fly me to the moon and back
Baby your love kinda feels like that

My favorite boots and my broken in blue jeans
They go together yeah they fit just right
And we're amazing and you swear you'll never find all I have
Your love kinda feels like that

Girl you get me so high
I've been kissed by the sun, up in cloud number nine
And you don't even try
When I'm holdin' on to you yeah you fly me to the moon and back
Baby your love kinda feels like that
Yeah it feels like that

Yeah baby

Girl you get me so high
I've been kissed by the sun, up in cloud number nine
And you don't even try
When I'm holdin' on to you yeah you fly me to the moon and back
Baby your love kinda feels
Your love kinda feels like that

Feels like that
Yeah
