

Last Slow Dance

Jason Blaine

All night long, standing in the corner with my two left feet on
Still I knew that I was gonna do what I had to do to play it cool
Get up my nerve, to walk up to her

Hey let the band play on
It's the last slow dance and I've waited too long
All I want is to hold her in my arms
Hey, give me one more try
I really want to tell her what I feel inside
And make her mine
It's the last slow dance of the night

All my life, searching for what I've found her eyes
Could it be, she's the one
That Just may be, she's waiting on me
It's a roll of the dice
And I'm feeling lucky tonight

Hey let the band play on
It's the last slow dance and I've too long
All I want is to hold her in my arms
Hey just a little more time
I really want to tell her what I feel inside
And make her mine
It's the last slow dance of the night

Oh my god here I go
Heaven help me if she tells me no, oh no

Hey let the band play on
It's the last slow dance and I've waited so long
Can't believe she's right here in my arms
Hey, just a little more time
I could spend every moment of the rest of my life
Like the last slow dance of the night

It's the last slow dance...
Of the night
