

# Run With Me

Jason Blaine

Girl I've got restless in my soul  
An untamed heart that's used to letting go  
Never been one for standing still  
I know it won't be very long until  
I wanna chase that setting sun  
Oh but this time when I run

I want you to run with me  
Baby let's make our big getaway  
Like a couple of bandits who robbed a train  
Racing the law down the desert two-lane  
There's a world to see  
And nothing here to slow us down  
I got the keys and a shotgun seat  
Baby run, run with me

There's ocean waves to sail across  
Mountains to climb where we can stand on top  
There's places the sun always shine  
There's long lost treasures left for us to find  
Yeah life is waiting for us now  
Just beyond this little town

Run with me  
Baby let's make our big getaway  
Like a couple of bandits who robbed a train  
Racing the law down the desert two-lane  
There's a world to see  
And nothing here to slow us down  
I got the keys and a shotgun seat  
Baby run, run with me

Right beside me, wherever that road leads  
All the way, all the way

Run with me  
Baby let's make our big getaway  
Like a couple of bandits who robbed a train  
Racing the law down the desert two-lane  
There's a world to see  
And nothing here to slow us down  
I got the keys and a shotgun seat  
Baby run, run  
Baby run, run with me, yeah  
Run with me
