

When I See You

Jason Blaine

I see a Rolling Stones red lips t-shirt sticking out its tongue
I see a peace sign patch on the backside of some Levi's 501s
I see 11:11 on the dash, heaven hanging over green grass
Cherry limeade and Tennessee Jack in a DQ cup

That's what I see, girl, when I see you
See me and you forever, see me getting down
On one knee, girl, Ray-Ban weather
My sunshine whenever I need it
Everything Sweet Girl, like champagne sparkle
Your hands up, drop top, Neil Young rocking
In the free world
That's what I see, girl, when I see you

I see a Waffle House mug in your hand, you wearing my button-up
I see a screen print Marilyn under pink neon, stay forever young
I see a string of white lights in May, a Corner Pocket, you sinking that hat eight
I see a jumbotron kiss cam, call mom, ask your dad for your hand, oh man

That's what I see, girl, when I see you
See me and you forever, see me getting down
On one knee, girl, Ray-Ban weather
My sunshine whenever I need it
Everything Sweet Girl, like champagne sparkle
Your hands up, drop top, Neil Young rocking
In the free world
That's what I see, girl, when I see you

I see yellow bee honey
A blue stripe 85' pick-up running
Sparks and Sunday pews
A lazy brown dog, and a couple kids too
When I see you

That's what I see, girl, when I see you
See me and you forever, see me getting down
On one knee, girl, Ray-Ban weather
My sunshine whenever I need it
Everything Sweet Girl, like champagne sparkle
Your hands up, drop top, Neil Young rocking
In the free world
That's what I see, girl, when I see you
Oh yeah, girl, when I see you
That's what I see, that's what I see
Baby, when I see you, you
That's what I see, that's what I see
When I see you
