

This Heart Of Mine

Jason Castro

Under it all, this heart of mine is ready to fall
for you anytime.
I could be all you needed
can't you see this

and I'll be patiently waiting
for you, love isn't fading
Save this heart of mine
woah woah

Every time i look in your eyes
can't control my heart, I'm so high.
I should be okay but I'm just so afraid of this heart of mine,
blind, following love down the line.
I can't explain but don't mind this heart of mine.

So if its alright, I'm gonna sing to you into the night
like you want me to
It could be all we needed
I believe it.

I wanted more then just alright
shaking under your street light
I am right outside so come, oh come on out here.

Every time i look in your eyes
can't control my heart, I'm so high.
I should be okay but I'm just so afraid of this heart of mine,
blind, following love down the line.
I can't explain but don't you mind, don't you mind
oh, this heart of mine.
oh oh oh

fall on me, like i fall on you
like i want you to

Every time i look in your eyes
can't control my heart, I'm so high.
I should be okay so why am i afraid of this heart of mine, its
blind, I'll follow your love all the time.
I finally know that you don't mind this heart of mine.
