

# Through

Jason Gray

I see the trouble standing before me  
Like a mountain, it's like a mountain  
My spirit is trembles under its shadow  
I can't escape it, Lord, help me face it

I can't keep pretending everything is okay  
I can't keep on hidin', hopin' it goes away  
I'm movin' forward, even though I'm afraid  
Can You hear my heart say, hear my heart say:

I need You  
To lead me through  
There's no gettin' over it  
Or goin' around it  
When the mountain won't move  
(When the mountain won't move)  
I need You  
To lead me through  
Walkin' before me  
Behind, and beside me  
I'm followin' You  
The only way out  
Is if You lead me through

It won't be easy, it won't be painless  
But Lord with Your strength, I will get through this  
There is no cheatin' or taking shortcuts  
It takes a cocoon to make a butterfly

I need You  
To lead me through  
There's no gettin' over it  
Or goin' around it  
When the mountain won't move  
(When the mountain won't move)  
I need You  
To lead me through  
Walkin' before me  
Behind, and beside me  
I'm followin' You  
The only way out  
Is if You lead me through  
Through  
You lead me through (yeah)  
Through

Sometimes it feels like the world is shakin'  
Sometimes it feels like it's never gonna end  
But just up ahead, I believe that the light is  
Breakin' through, breakin' through  
Sometimes it feels like the world is shakin'  
Sometimes it feels like it's never gonna end  
But just up ahead, I believe that the light is  
Breakin' through, Jesus I need You

When the mountain won't move  
I'm goin' where You go

'Cause there's somethin' beautiful  
You're leadin' me to

I need You  
To lead me through  
There's no gettin' over it  
Or goin' around it  
When the mountain won't move  
(When the mountain won't move)  
I need You  
To lead me through  
Walkin' before me  
Behind, and beside me  
I'm followin' You  
The only way out  
Is if You lead me through (oh-oh-oh)  
Through (yeah)  
You lead me through (You're leadin' me through)  
Through (yeah, You're leadin' me through)
