

# What The Hard Times Taught Me

Jason Gray

Sometimes it feels like I learned to see in the dark  
Like something came together when I fell apart  
Getting up again when my knees were skinned  
Showed me every end is where you hit restart

I wish there was an easy way  
But I found the light in darker days  
Yeah

I believe that I'm where you want me  
I can see from the place you brought me  
There's so much life in what the hard times taught me  
Though it didn't go the way I planned it  
I learned how to live open-handed  
I came alive in what the hard times taught me  
What the hard times taught me  
Got me where you want me  
What the hard times taught me  
Got me where you want me  
What the hard times taught me  
Got me where you want me  
Got me where you want me  
Where you want me

Only the broken can tell you what healing is  
When we're in need of forgiveness we learn to forgive  
There's no rewind, just crooked lines  
But Love is kind, and makes us whole again

I wish there was an easy way  
But I found the light in darker days  
Yeah

I believe that I'm where you want me  
I can see from the place you brought me  
There's so much life in what the hard times taught me  
Though it didn't go the way I planned it  
I learned how to live open-handed  
I came alive in what the hard times taught me  
What the hard times taught me  
Got me where you want me  
What the hard times taught me  
Got me where you want me  
What the hard times taught me  
Got me where you want me  
(Yeah) Where you want me  
Got me where you want me

I'm wiser, and I'm kinder  
Than I was before  
It broke me, but you woke me  
And I thank You Lord  
I thank You Lord

What the hard times taught me  
Got me where you want me  
What the hard times taught me

Got me where you want me  
Though it didn't go the way I planned (What the hard times taught me)  
I learned how to live open-handed (Where you want me)  
I came alive in what the hard times taught me (Where you want me, got me where you want me)

What the hard times taught me  
Got me where you want me  
What the hard times taught me (Where you want me)  
Got me where you want me  
What the hard times taught me (I'm where you want me)  
Got me where you want me  
Got me where you want me  
Where you want me
